ABOUT MYSELF

Final-year Computer Science major with a strong foundation in Python and Web Development. Passionate about leveraging technical skills to create innovative solutions, I am eager to contribute to dynamic teams and projects that blend creativity with innovation and technology. Actively seeking opportunities to enhance my technical capabilities and gain hands-on experience in a professional environment.

RESEARCH EXPERIENCE

[09/2024 – 05/2025]

Research Assistant - MachVIS Lab, SEECS, NUST

Worked on my FYP, Cultivating Profits, a smart farming assistant designed to help farmers make better financial decisions. I worked on a website that tracked farmer's expenses and suggested the most cost-effective and profitable ways to plan farming activities. The goal was to support farmers in increasing their earnings and using their resources more efficiently using AI and predictive Machine Learning algorithms.

EDUCATION AND TRAINING

BS Computer Science

National University of Sciences and Technology, H-12 Islamabad [09/09/2021 – Current]

City: Islamabad | Country: Pakistan | Website: [nust.edu.pk](https://www.nust.edu.pk) | Field(s) of study: Engineering, manufacturing and construction
